Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. Newly submitted claims 53-59 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: a navigation method wherein an icon changes according to a state of facilities, or where icon information is retrieved when an icon is selected on an image plane could have been used in systems other than those which required transmitting icon information or retrieving icon shape data, and such later referenced systems would not have required particulars of changes with facilities or image plane selection.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 53-59 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 2632

Claims 49-52 are rejected under 35 U.S.C. 103(a) as being unpatentable over Behr et al. (789) in view of Sato.

Behr discloses a system for transmitting facility data requests from a vehicle to a central station, and having such data transmitted back to a vehicle for display (col. 3), except for specifically stating that facility icon is displayed on map or that icon shape data is retrieved.

Sato teaches desirability of displaying facility data on a map with respect to current location (Fig. 16) and for retrieving icon data including shape, either circular or triangular (col. 10).

It would have been obvious to retrieve shape data and display icons on a map in a system as disclosed by Behr, in order to determine more easily what type of facility was close by and its position with respect to a user's location.

Regarding claims 51-52, Sato discloses central map position (Fig. 16).

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of

Art Unit: 2632

the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brent Swarthout whose telephone number is (703) 305-4383. The examiner can normally be reached on M-F from 6:30am to 4:00pm.
